

Headache for Forty Years.

For forty years I suffered from sick headache. A year ago I began using Celery King. The result was gratifying and surprising. My headaches leaving at once. The headaches used to return every seventh day, but thanks to Celery King, I have had but one headache in the last eleven months. I know that what cured me will help others.—Mrs. John D. Van Keuren, Sanger, N. Y.

Celery King cures Constipation and all diseases of the Nerves, Stomach, Liver and Kidneys. Sold by druggists. 25c and 50c.

Even with a genealogical record not easily matched in Moses Chamberlain, of Milton, Pa., born in 1812, the twenty-third child of Col. William Chamberlain, who commanded a New Jersey regiment in the revolutionary war. He was married four times and had seven children by the first wife, four by the second, four by the third and eight by the fourth. Only one survives, though their descendants number over a thousand. The life of the survivor and that of his father reaches back to 1736, when Washington was four years old.

A New York superintendent of schools says: "We have had more cases of corporal punishment to investigate this year than usual. Our boys seem more than ever given to fighting. I think it is due to the way in which most of the newspapers exploit the doings of prize fighters. Not only is a great deal of space devoted to prize fights, but the pugilists and scenes at the ring-side are fully illustrated. Now, all this has had effect on the boys, and is the cause of most of their disorderly acts."

A young woman whose home is within a few miles of Augusta, Ga., makes a comfortable living for herself and her mother by growing bulbs and selling them to northern seed houses. She inherited about 50 acres of land which the neighbors said was too poor to sprout cowpeas. She bought a mule and went to work clearing up and fertilizing. Now she has a beautiful bulb and flower farm.

A young woman has had the color of the pupil of her eye restored by tattooing with India ink at the Miami (O.) medical college. Years ago an ulcer involving the cornea, encroached upon the pupil, leaving an unsightly white scar. The patient suffered a three days' ordeal during the process of tattooing.

Prairie dog meat is now said to be "white, tender and delicate," with a "rich, toothsome flavor" superior to that of spring chicken or quail. There has always been a theory that the prairie dog must have been created for some useful purpose, but the information as to its food qualities comes late.

If troubled with rheumatism, give Chamberlain's Pain-Balm a trial. It will not cost you a cent if it does no good. One application will relieve the pain. It also cures sprains and bruises in one-third the time required by any other treatment. Cuts, burns, frostbites, quins, pains in the side chest, glandular and other swellings are quickly cured by applying it. Every bottle warranted. Price 25c and 50c. A. R. Chamberlain, Druggist.

A certain congressman has received the following suggestion: "Would it not be well for the United States government to prohibit the exportation of mules until our supply has caught up with the demand? The country is now being depleted of its mules, and should any serious trouble occur with any of the European nations our means of transportation would be seriously hampered."

How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somewhat the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

Scott's Emulsion

You will find it just as useful in summer as in winter, and if you are thriving upon it, it will stop because the weather is warm.

Soc. and 50c, all druggists. SCOTT'S EMULSION, New York.

Spreads Lake Wildfire.

When things are "the best" they become "the best selling." Abraham Hare, a leading druggist, of Belleville, O., writes: "Electric Bitters are the best-selling bitters I have handled in 20 years. You know why? Most diseases begin in disorders of stomach, liver, kidneys, bowels, blood and nerves. Electric Bitters tones up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures multitudes of maladies. It builds up the entire system. Puts new life and vigor into any weak, sickly, run-down man or woman. Price 50 cents. Sold by all Druggists."

Danger in Expectoration.

In a report to the State Department, Consul Nelson says: "In November of last year, Dr. Claus Hansen, of Bergen, delivered a lecture before the Storthing, at Christians, on the causes of tuberculosis and the fight against it. He stated that during the thirty years of his own experience, consumption had increased in the Bergen district 80 per cent. In the year 1896, 54.5 per cent of all deaths between 15 and 30 years of age were caused by tuberculosis, and statistics show that about 7,000 of the inhabitants of Norway die every year of this disease. "In England," he continued, "they have succeeded during the last fifty years in reducing one-half the number of tuberculous cases, and physicians attribute this to the increasing cleanliness in English home life and the erection of consumptive hospitals. The foremost endeavors in fighting tuberculosis should be to agitate for greater cleanliness in general; particularly should efforts be directed against the habit of expectoration."

The wildcat well one mile west of Milton Center, on the Charles Wismer farm, was drilled in Thursday and was shot Friday at 11 o'clock. It was drilled about 85 feet in the sand and shot with but 100 quarts of the explosive. In twenty minutes after the shot, there was 500 feet of oil in the well. There is also quite a supply of gas. It is proposed by the drillers, who, by the way, are old Pennsylvania oilers, that the well will be good for from 25 to 40 barrels. The well is 1400 feet to the Prenton. The well was put down by Mr. Geo. Dismen, of Lima. He feels confident of the territory and has ordered up another rig. He has quite a block of territory leased and says he means business.—Sentinel.

If you were to go to Mississippi do not rashly offer a reward for the saving of your wife's life, unless you expect to pay it. So

a court has ruled. It seems that a woman fell into a raging torrent there, while her husband, unable to swim, stood on the bank and did the properly terror-stricken act, while listening to the woman's cries. Just then a neighbor rushed up, and the potential widower, waving his hand to his horses and carriages near by, cried: "I'll give you those if you save her." The neighbor did save her, at the risk of his own life. Then he claimed his reward. But the husband was busy scolding his wife and replied vain things. Suit was brought. The husband said he offered the horses and wagon while laboring under temporary excitement, and added that the property recovered was not worth the amount of the reward. The jury, however, found for the plaintiff, holding that when one offers something for the saving of a life one is liable for the amount offered, if it is earned according to the terms of the offer. They did not consider that it required an excessive degree of excitement to propose such a reward. So, a husband's opinion to the contrary, a Mississippi wife is worth two horses and a wagon.

So fierce is the battle of competition, so strong the spirit of trade, that it is commonly believed that when a business house is burned out or meets with other disasters, rival firms are ready to mount the ruins and gloat over the extra grist brought to their own mills. But, as a matter of fact, says the Chicago Tribune, there is among merchants a good deal of that same kind of fraternal feeling that, in the days when people lived in houses and had back fences of their own, caused a sympathetic neighbor to fix up the gaps made by hastily departing servants with a welcome pie handed over the fence. And so when a business house has been the victim of a fire neighborly opponents come forth with friendly offers of assistance which are usually accepted in the same spirit in which they are given. Business is business, of course, but there are times when business is more than business.

A Horrible Outbreak.

"Of large sores on my little daughter's head developed into a case of scald head," writes C. D. Ishill of Morgantown, Tenn., but Bucklen's Arnica Salve completely cured her. It's a guaranteed cure for Eczema, Tetter, Salt Rheum, Pimples, Sores, Ulcers and Piles. Only 25c at all Druggists.

This is a great country. Last year the crop of wheat was 547,303,846 bushels; corn, 2,073,143,933 bushels; oats, 790,177,713 bushels; barley, 73,381,563 bushels; rye, 23,961,741 bushels; buckwheat, 11,954,473 bushels; potatoes, 228,783,232 bushels; hay, 59,633,756 tons. The average farm prices reported were: Wheat, 55.4 cents; corn, 30.3 cents; oats, 24.9 cents. These figures do not break the record, but they are in the front rank. Meanwhile, the manufacturing capacity is enormous. No country has such a railway system, such furnace outputs, such huge shops and mills, while in trade the vast combinations and trusts are equally colossal.

Eight Hundred Thousand

Sufferers From Kidney Trouble Cured This Year by

Dr. David Kennedy's Favorite Remedy. Sample Bottle Free.

Thousands who have written for one of the free trial bottles of Dr. David Kennedy's Favorite Remedy have literally had their lives saved by a postal card. They got the trial bottle, and it proved to them that Dr. David Kennedy's Favorite Remedy was the only real cure for diseases of the Kidneys, Liver, Bladder and Blood, Rheumatism, Dyspepsia, Chronic Constipation and the sicknesses peculiar to women. They bought a large sized bottle of their druggist and it benefited or cured them (the above is not an idle statement, but the result of careful investigation).

You can do the same thing. If you are in doubt as to whether you have trouble with your Kidneys or Bladder, put some of our urine in a glass tumbler and let it stand 24 hours; if it has a sediment, or a milky, cloudy appearance, if it is ropy or stringy, pale or discolored, you should lose no time in taking Dr. David Kennedy's Favorite Remedy; it can be had of all druggists at \$1.00 a large bottle, or six bottles for \$5.00. It is without question the surest medicine of the age to put a stop to such dangerous symptoms as pain in the back, a frequent desire to urinate, especially at night, scalding burning pain in passing water, inability to hold urine and all the unpleasant and dangerous effects produced on the system by the use of whiskey and beer.

Send your full name and address to the Dr. David Kennedy Corporation, Rondout, N. Y., and be sure to mention this paper when a trial bottle, with pamphlet of valuable medical advice, will be mailed to you absolutely free. The publishers of this paper guarantee the genuineness of the medicine.

A Candid Publisher.

In the recent death of J. Schabelitz, the famous Zurich publisher and author, the world of art and letters has lost one of its extraordinary characters. He was a shrewd business man, an excellent linguist, a skillful writer, and probably the most savage publisher who ever lived. When he accepted the famous memoirs of Count von Arnim, he wrote on the postal card, with the acceptance, the proviso: "I reserve the right to correct your infernally bad grammar." To an aspiring poet who had submitted manuscript he answered by postal card: "I refuse to be disgraced by printing your doggerel. I don't return the copy because you didn't inclose enough postage. If you will send it, with the price of this card, I will send it to you, but I don't think the stuff is worth the expense on your part." One of his postal cards to a novelist read about as follows: "For Heaven's sake, come and take away the unnamable mass of paper you left here for me to look at." An ambitious historian was crushed by the following, written like all his correspondence, upon a postal card: "You are making the mistake of your life. You don't want to study history. You want to learn how to write."—Saturday Evening Post.
